IRIS DAYLILIES 1952

TOM CRAIG

HYBRIDIZER & GROWER

RANCHO DE LAS FLORES
STAR ROUTE, BOX 315, ESCONDIDO, CALIFORNIA
Phone Escondido 8836 R4

Greetings, friends!

Thanks for your support of our hybridizing work through your orders.

Our big move from Los Angeles to Escondido is now nearly complete, with 12 acres of iris and daylilies growing profusely in this virgin soil. With the heaviest rainfall in years, we will have wonderful plants and lots of them; so with every order give us some hints of what you want for your surprise, and when stocks permit we will include something special.

Note the special offers on the order blank. If you want early shipment, let us know, for we will start shipping seedling orders May 1st and will be able to ship some orders with the seedlings. Wholesale customers welcomed. Write for special terms.

1952 INTRODUCTIONS by CLARENCE WHITE

Please refer to page 23 for a history of oncocyclis hybrids and Mr. White's intimate association with them. We are proud to present here six of Mr. White's newest creations.

KALIFA FATIMA (White)—Oncobred. Gray, blue and purple. A breeder's triumph! Like a wild oncocyclis flower and with abundant pollen. Illustrated on cover. So prolific we can introduce it at **\$10.00**

HASIM PASHA (White)—Oncobred. Dark purple bicolor with black signal and yellow ochre beard. **\$10.00**

ARSLAN PASHA (White)—Oncobred. Lavender and purple bicolor with dark signal. Limited stock. **\$15.00**

JALLAH EFFENDI (White)—Standards clear yellow-green with delicate mahogany veins, red splashed; falls yellow, veined red around mustard yellow beard, purple splashes. **\$15.00**

SINAN AGHA (White)—Standards pearl grey, veins yellow with irregular lines of heliotrope. Falls yellow with suggestion of signal patch in splashes of heliotrope grey. Oncobred. **\$10.00**

BALI AGHA (White)—Oncobred. Standards lavender veined purple; falls buff veined russet vinaceous and splashed red. Stock is very limited. **\$15.00**

1952 INTRODUCTIONS by TOM CRAIG

TALL BEARDED IRIS

ROSE SACHET (Craig)—A sister to Molten, of refined form in subtle blended old rose. **\$10.00**

WAR DANCE (Craig)—A large, brilliant, hot red derived from Molten. **\$15.00**

GENE WILD (Craig)—A charming fancy plicata derived from Rich Raiment x Joseph's Mantle. Its rosy color is novel and its form and stem perfect. **\$20.00**

ELSIE HEIMER (Craig)—Fine form. White jade, apricot beard (Maerz & Paul color). (Spindrift x Isabellina) x Peach Parfait. Two sister seedlings named for our twins follow. **\$10.00**

FRANTIE (Craig)—Rosebreath pink, flame beard. St. open. **\$10.00**

PATTY (Craig)—Flaring form. Aster, flame beard. **\$10.00**

ONCOCYCLUS HYBRIDS

FRANCES CRAIG (Craig)—This Mohr hybrid I prefer to any iris I have ever seen. Immense, pale greyed lavender flowers on tall stems. For substance, quality and garden color it is tops. H.C. 1951. **\$25.00**

MARY VALENTINE (Craig)—This giant pale Mohr hybrid is the finest pale blue iris yet seen, surpassing all others in form, substance, branching and color fastness. **\$25.00**

MARY McCLELLAND (Craig)—A giant deep blue of perfect quality. Some onco blood. Certificate of Commendation. **\$25.00**

PUFF (Craig)—A much ruffled greyed blue sister seedling of Frances Craig with lots of charm, and much more petite than one would expect from crossing Snow Flurry and Capitola. **\$10.00**

ETCHING (Craig)—Delicate near white Mohr hybrid with pale grey veining. **\$10.00**

ENGRAVED (Craig)—Strange and unique onco-plicata of white with an over-all intense network of crisp steel engraving. **\$10.00**

1952 General List

BEARDED IRIS

This year, as always, we have ruthlessly judged and destroyed the varieties we consider no longer worthy for your garden in the light of newer and better introductions. In all, 117 varieties were dropped from the catalog. However, with the customary addition of good new kinds our list of bearded iris still includes more than 500 varieties, so we feel sure there is nothing you could desire which is not obtainable here. Good hunting!

Craig's Stuff

Through the general list of bearded iris you have noticed some names in bold type (like Weirdie, above). These are varieties of our own breeding. They appear in bold type for two reasons. First is the fact that we believe these varieties to be superior to existing kinds of their type and color, else we wouldn't have introduced them. Second, we wanted to make it easy for you to take advantage of the offer we make here:

Select any 5 Craig irises from the general list (one of each) and take from their catalog value **25%** Discount

Select any 10 Craig irises from the general list (one of each) and take from their catalog value **33 1/3%** Discount

Iris Collection

"Be not the first by whom the new are tried
Nor yet the last to lay the old aside."

Upon this bit of 18th century wisdom this collection is assembled. These are all varieties of fairly recent introduction—tested and approved by countless gardeners and fanciers. Yet, they have been grown long enough now so that good supplies are available, and the prices have accordingly come down from their lofty peaks. All these iris now sell for \$1.50 to \$3.50 each.

THE ABSOLUTE MOST TEST BEARDED IRIS FOR YOUR MONEY

We've got a bear by the tail, and we figure the best way to let go is sell the bear! In our gigantic moving job from Los Angeles to our new ranch near Escondido we found ourselves with new fields producing fine, big plants. Furthermore we have plenty of stock of many choice varieties still growing in the 6 acres we have in the Los Angeles region.

That makes lots of iris. We've got to wind up our affairs in L.A., and that means letting go of all those iris at sure-to-sell prices.

OK. How's this for irresistible bargains!

CRAIG'S BREEDING COLLECTION

With pedigree: 5 for \$3.50, 10 for \$6.00

ONCOBREDS, MOHR HYBRIDS, TANGERINE BEARDED PINKS, HOT REDS, PLICATA FANCIES, etc. With Mr. White we have, in these selected seedlings, the best oncobred and Mohr hybrids in existence. Our selected tangerine bearded pinks are tops in comparison with others selling for \$10.00 or more. Our plicatas display unbelievable quality and variety. From countless thousands of different seedlings we have selected only hundreds. All but a few of these top selected seedlings will go into this breeding collection. We can't introduce them all. This is the way for you to take advantage of brother and sister lines nearly identical to the most expensive varieties.

These selected hybrid seedlings will be sent with pedigree attached. Only beautiful and high quality flowers reach this advanced stage of selection, so you will have lovely things for your own, exclusive clons. State your special interest with order. For seedlings **without pedigree, deduct 15%.**

An Appreciation

CLARENCE WHITE and his ONCOCYCLUS HYBRIDS

In 1573 the Mourning Iris, *I. susiana*, was brought from the gardens of Constantinople to Holland. Never was such a beautiful and exotic flower seen. Since then, collectors have constantly combed the desert lands of the near east for the many species of oncocyclus iris found there. Millions of plants and seeds have been exported to gardens all over the world. Every attempt was made to grow the wild forms, but few gardeners have even been able to flower them. Although the hybridizing of "oncos" started along with the first efforts to breed iris, only moderate success was achieved by the Dutch and other Europeans. Vast sums of money have been spent in the effort to establish some strong garden plants with Onco character.

Easily the most outstanding figure of all time in this development is Clarence White. As a young man his time was given to manufacturing, and he worked in the development of modern farm machinery. He also farmed on a large scale in Florida and Hawaii. Very early he sold these interests and retired to Redlands where he and his family worked hard with painting, crafts and the hybridizing of plants. His artist's eye was captured by the exotic beauty of the oncos and the difficulty of the project was a challenge to his creative imagination. Backed with determination and sufficient means, he gave us first the finest of the smaller garden plants of onco character—Nelson of Hilly, Susan of Hilly, Mozo, Cogette, Oyez, Near East, Sardis, Tophilly, Some Love, etc. These oncobreds are closer to the early Dutch introductions but with stronger blood lines and more varied and of finer quality. Next came tall hybrids with regelia influence like Sheriffa and Gypsy King.

Starting with Joppa Parrot and Jumna Mr. White's efforts were finally rewarded with hybrids that would breed easily. Hence, the releases of the last two years are not only stronger garden plants, but a source of delight and amazement to hybridizers. We do not list oncocyclus species or older Dutch onco-regelia hybrids because we have found them too hard to grow. These new oncobreds of Mr. White's are proving easy to grow. We refer you to page 2 of this catalog for this year's introductions, put on sale early with small stocks so that breeders can use them now.

SPURIA IRIS

This class of beardless iris has many virtues. The plants are hardy everywhere; they need not be lifted frequently; the flowers keep well when cut. Resembling dutch iris in flower form, except that they are larger, spurias bloom along with your late bearded iris. **Spurias are shipped in the fall.**

DAYLILY

Succession Collection

This group of daylilies has been selected to give you what every gardener wants—a constant glow of color. These daylilies have overlapping periods of bloom from very early spring to late fall, with occasional blooms in the winter, too, in mild climates.

There is a good color range, and we have selected only those we consider the best.

Your choice, one each of any ten of the above daylilies..... **\$3.50**

(If you say, "I'll pay the express", we will include a plant of Regal Lady, value \$2.00, at no extra charge. Regal Lady is extra interesting because it blooms early, midseason, and late!)

Extreme Color Range

DAYLILY COLLECTION

There was a time when daylilies were just plain yellow, but in the last 50 years vast increases in color range have taken place. Now we can offer shades from near white primrose through canary, pink, orange and red to deepest maroons and purples, with many wonderful bicolors besides.

This group is our choice of varieties for the absolute limits of color range available today. It includes the most modern achievements in broadening the daylily color field.

Princess —Lemon	\$1.50	Royal Ruby —Crimson ...	\$2.50
Mongol —Yellow	2.00	Black Emperor —Dark red	1.50
Oro Fino —Gold	3.00	Bacchus —Maroon	3.00
Rosalind —Very pink ...	1.00	Garden Lady —Pink blend	2.50
Regal Lady —Lemon and rose bicolor...\$2.00			

Nine Daylilies, one each of the above varieties, value \$18.50..... **\$10.00**

(If you prefer, you may select any of the following as substitutes in the above collection, limit one each. **Ivory Chalice**, ivory; **Swan**, orange-yellow; **Kanapaha**, raspberry; **Berwin**, carmine; **Purple Finch**, red; **Autumn Forest**, red-black; **Debutante**, buff-pink; **Helen Field Fisher**, peach pink; **Crystal Pink**, salmon; **B. H. Farr**, grenadine pink; **Amulet**, coral; **Mirage**, mustard veined orange-red; **Muscat**, mahogany purple.)
